

## PROGRAMME DESCRIPTION

The Doctor of Philosophy (PhD) in Social Sciences is a well-balanced programme that imparts an understanding of the causes of social changes, or the relationships between individual and state. The first year of the Programme will consist of compulsory course work followed by intensive research in various fields like Sustainability in Social Science, Social Anthropology, Education and Learning, Public Services, Environment and Energy, International Relations, Decision Making in Social Science and many more. The Department also offers its researchers strong support with specific methodological issues such as comparative research design, statistical methods, and survey research. During the independent studies, the students will be encouraged to work with industry leaders, civic leaders, government leaders, governmental as well as non-governmental development agencies, and general public to assure that all outcomes of their independent thinking are linked with their individual growth as well as with the betterment of the society. At every stage of learning, the students will be encouraged to invent new ideas in the field of Social Sciences. The students will be encouraged to participate in workshops, seminars, and conferences as well as to publish in refereed journals. The outcomes of the proposed programme are designed to contribute significantly towards societal outlook and environmental responsibility, improved quality of life of the population, and more importantly, towards the socio-cultural development and prosperity of the nation and its populace.

## PROGRAMME AIM

The purpose of this program is to encourage students to make unceasing and diligent efforts to pursue holistic self-development to cultivate self-discipline and integrity, to nurture creativity into broad-minded future leaders with international outlook.
