

## PROGRAMME DESCRIPTION

Bachelor of Science (Hons) in Nursing, offered by Lincoln University College, will help the students to acquire, theoretical as well as practical knowledge, regarding the diverse aspects of nursing and nursing practice. Nursing is a healthcare profession that equipped students to care of individuals, families and communities so they attain or recover optimal health and a healthy life. Our program of study includes both theoretical learning and practical training sessions in a large variety of specialities. Our experienced teaching faculty emphasizes on the enhancement of advanced clinical skills as well as essential nursing skills. The value of the course is an immense and it is job orienting in nature. Thus our program of study, will prepare the students for a professional career in nursing.

## PROGRAMME AIM

The aim of the undergraduate nursing program is to:

- Train graduates having the responsibilities as professional, competent nurses in primitive, preventive, curative and rehabilitative services.
- Prepare graduates who can take independent decisions in emergency situations and confidently engage in nursing practice that encompass values, ethical, moral and legal aspects of nursing.
- Prepare graduates who can Integrate research findings and nursing theories and able to work independently and collaboratively with other health professions as an advanced beginner professional nurse
