

Faculty of SCIENCE

The Faculty of Science at Lincoln University College, Malaysia is a world-class faculty where staff and students both work together in a dynamic intercontinental environment. It is the faculty where personal and educational development are top priorities. Our students are driven by curiosity to expand essential knowledge and to look ahead of the borders of their own discipline; their objective is to benefit science, and to promote addressing the most important societal challenges of the future. The research carried out at the Faculty of Science is very wide-ranging. We value brilliance in research and intellectual pursuits, high-quality teaching, enthusiasm for discovery, teamwork and collaboration, civic engagement, and service.
