Diploma in Traditional Chinese Medicine

(N/0917/4/0002) (07/2028) (MQA/ PA 14574)

PROGRAMME DESCRIPTION

The course explores the history, tradition and global practice of Chinese Medicine that evolved over the years and it provides students with specialized skills to assess conditions commonly experienced by the community. Quality education as well as high level of thinking is essential for successful and rewarding practice. Lincoln University College is committed to excellence in TCM education. Our programs are designed to meet or surpass the highest available standards required for professionalism. Aside from gaining tips to benefit one's health, the course aims to create more job opportunities for the students in the TCM and Healthcare industry.

PROGRAMME AIM

The objective of Traditional Chinese Medicine course not only educating students about various field of Chinese Medicine but also understands the rationale behind these practices. This programme employs an interdisciplinary approach combining biomedical sciences with traditional and complementary medicine practices and taught by highly experienced practitioners in preparing its graduates to meet the challenging endeavour as a Traditional Chinese Medicine practitioner. In addition,this learning will help the students to synthesize knowledge, participate in scientific and scholarly inquiry and think critically as well as creatively to resolve problems.
